

Rashmi Singh

Associate Professor, Department of Zoology, MMV

Banaras Hindu University, Varanasi-221005, India

Email: rashmirs98@rediffmail.com; rashmisinghmmv@gmail.com

Academic Qualifications

S.No	Degree	Institution	Year
2.	M.Sc. Zoology with specialization in Animal Cytogenetics	University of Allahabad, Allahabad, India	1995
3..	Ph.D	Central Drug Research Institute (CDRI), Lucknow and University of Lucknow	Awarded in 2000

Post doctoral Research Experience: 4.5 years (1999-2003)

S.No.	Institution
1.	National Institute of Immunology, New Delhi, India
2.	Case Western Reserve University, Cleveland, OHIO, USA
3.	Oklahoma Medical Research Foundation, OKLAHOMA CITY, USA

Teaching Experience: 13 years (UG and PG classes)

S.No.	Institution	Year
1.	Udai Pratap Autonomous College, Varanasi	2004-2007
2.	Department of Zoology, MMV, Banaras Hindu University, Varanasi	2007-till date

Projects Undertaken as Principal Investigator

S. No.	Title of the Project	Name of Sanctioning Agency	Amount sanctioned (INR)
1.	Role of Curcumin on airway hyperresponsiveness: study on molecular mechanism and therapeutic potential	University Grants Commission, New Delhi, India (2011-2014)	6,86000
2.	Lipopolysaccharides from Airborne pathogens contribute to Lung inflammation: Study on Immunomodulation	Science and Engineering Research Board, Department of Science and Technology (DST-SERB) (2012-2015)	24,96000
3.	Development of aerosol based novel drug delivery method/device for the regulation of asthma exacerbations and pulmonary fibrosis	Biomedical device and technology Development (BDTD)-TDT Division, Science and Engineering Research Board, Department of Science and Technology (DST-SERB) (2018)	12,00,000

Ph.D produced-02; Thesis submitted-01; Ongoing- 04

Area of Interest

Immunobiology of lung microenvironment and Inflammation, Immunoglobulin receptor (FcγR) signaling in neutrophils and Molecular mechanism of Inflammation in Arthritis and Asthma.

Current Research Interest

Molecular pharmacology of allergic asthma, Toxicology of various pollutants involved in asthma severity leading to fibrosis, Inflammasome activation and regulation, Systematic Pharmacology and immunomodulatory and immunotoxicological properties of medicinal phytochemicals involved in therapeutics.
