Dear Madam/Sir,

I Wish you a very Happy Productive New Year.

The Computer Centre of BHU, at present, does not have a complete
profile of email users of bhu.ac.in domain. This acts as a deterrent
when somebody wants to communicate with individual
institutes/faculties/departments/teachers/students/research scholars
and others associated with the university. In view of this, the
Computer Centre is planning to collect the data of email of faculty
members so that appropriate grouping can be formed.

If you do not have the email of the bhu.ac.in domain, we encourage
you to create an email id in the bhu.ac.in domain. This will enable
you to receive the official information as well as you can
communicate with particular groups as and when required easily.

I am enclosing herewith a Google form which has been developed for
collecting the email records of ...@bhu.ac.in.   I request you to
kindly provide all details.

If we do not receive any update from you by 6th January 2022, you may
encounter problems in logging your bhu.ac.in account.

The link of the Google form is BHU Email Form - Final (google.com)
