- *I am establishing a university, which will combine ancient wisdom with the knowledge of the physical sciences and technology. There could be no greater charity than that of providing knowledge.*
- *God in his infinite mercy gave us the idea of starting a Hindu University and it is due to Him that the University has achieved its present progress.*
- *When the end is near see to it that I am not taken inside the Panchkroshi. If I breathe my last in Kashi, I am likely to attain mukti but I wish to be born at least once more to serve the country and especially the Banaras Hindu University.*

–Mahamana Pt. Madan Mohan Malaviya
