No.SRICC/Project Guidelines/2022-23/1537

Date : October 10, 2022

NOTIFICATION

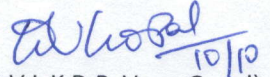

Subject : Project Guidelines – 2018 - insertion of proviso under 4 (i).

As per Project Guidelines – 2018, project code is allotted by the SRIC Cell only after receipt of first instalment of grant from the funding agency. Recently some funding agencies made it mandatory to appoint project staff before release of first instalment. The Principle Investigators, who have submitted these projects, approached SRICC and informed that appointment of project staff is not possible without allotment of project code. The matter has been considered by the authorities and for smooth running of the projects and to meet the requirements of the funding agencies, it has been decided to insert the following proviso in the Project Guidelines – 2018 under the heading 4.

Allotment of Project Code number after 4 (i):

“Provided, as an exception, if the conditions imposed by the funding agency through their sanction letter necessitate allotment of project code number prior to receipt of fund, project code number may be allotted on the specific request of the PI with the approval of the Professor-In-charge (SRICC). However, no expenditure is allowed before receipt of the grant from the funding agency.”

All are requested to kindly note the same.

(D.V.L.K.D.P. Venu Gopal)
Deputy Registrar (SRICC)
